

# Tech Committee Meeting

## 11-12-15

- ❖ Introductions
- ❖ Our Goal
- ❖ Time Frame
- ❖ Topics for this meeting:
  - What do you hope we talk about?
    - What are our priorities?
    - Possibility of one to one/BYOD including laptops and ipads
    - If we go 1 to 1 how do we manage it's use and upkeep?
    - Working definition of instructional technology
    - What are we currently using technology for?
    - IT support including funding and staff
    - Student Help Desk
    - Inventory of what we currently have
    - How does the public library fit in - CLEO
    - What are our libraries doing with IT
    - What are we doing with technology as it becomes outdated? How long before something is considered outdated?
    - How do we track our tech?
    - Flipped classroom
    - How/What do students currently use/have?
    - What do teachers have access to?
    - What are other schools doing? What do they look like?
    - STEAM programming
    - Technology in athletics
    - How do we keep up with ever changing advances?
    - How do our students get more access to journals/subscriptions/info?
    - Digital citizenship
    - PD options for staff
    - E-textbooks
    - How many people in the community have digital access/what do we expect of students for tech at home?
    - Distance Learning
  - Using our mission statement and our 21st century learning model as a reference, what are some of the major technology themes you see within these two documents? Is anything missing?
    - Would prefer the mention of life long learning

- No digital citizenship/safety mentioned
- No mention of preparation for the future of technology
- Using our current technology plan as a reference, what do you like? What would you change? What else should be included? **Need more time to look this over. Asked everyone to take it home and look it over.**
  - Positives:
    - Virtual field trips
    - Online testing
    - Distance learning
  - Negatives
    - How are we preparing students for online testing?
    - No online college courses
    - Missing distance learning within the district
    - No plan for real world uses of technology
    - No personal development of technology by students/staff
    - No mention of how to make students aware of what and how tech is used in the career work place
    - No mention of adaptation - teaching how to adapt/problem solve

❖ Future Meeting Dates and Times

- December 1st 2:45 - 4:00
